### Information about "blocked bank account" – Sperrkonto (for visa purposes)

On order to get a Visa some applicants have to open a so called „Sperrkonto“ (blocked account) with a German Bank before they can be issued a Visa. In this account there must be 11,208 Euros before a visa will be issued.

When you arrive in Germany you will only be able to withdraw approx. 934 Euros per month from this account.

**This means that when you have to withdraw a larger amount; for instance when your study fees are due to be paid in January and July, the bank will not allow this.**

**For this reason we recommend that you add additional funds to this account.**
